MEMORANDUM FOR: Director of Central Intelligence

VIA : Deputy Director for Administration

FROM : F. W. M. Janney
Chairman, Suggestion and Achievement Awards Committee

SUBJECT : Approval of $4,000 Award for Exceptional Accomplishment No. 76 (U)

REFERENCES : (1) Committee Summary (TAB A)

25X1A

(2) [redacted] paragraph c (2) (b) (4), dated 4 February 1975 (TAB B)

1. (U) Action Requested: Approve an award of $4,000 for Exceptional Accomplishment No. 76 based on intangible benefits of EXCEPTIONAL/GENERAL.

2. (S) Background: Seven officers assigned to the Office of Weapons Intelligence (OWI) of the Directorate of Science and Technology played an important role in the development of the methodology used by OWI in its Scientific and Technical Intelligence Report (STIR) entitled "Soviet New Generation Missile and Space Systems". The Deputy Director of Central Intelligence, Mr. Knoche, in a note to the DDI, described the report as "an impressive innovation" and indicated that those responsible for it should receive special recognition; a copy of Mr. Knoche's note appears as the last item under TAB A.

NOTE FOR: Deputy Director for Intelligence

25X1A [redacted]

I am very much impressed by this report and believe it faces up to one of the biggest substantive issues that confront us; namely, having to get an earlier glimpse into what the Soviets have in R&D.

If you agree with me that this is an impressive innovation, I would like to undertake several steps related to it. One, I'd like to put the analyst, or branch, or division, or whatever in for a unit citation and have some kind of splashy ceremony to bestow it and advertise the achievement. Second, I would like to break things down in such a way that the DDO, NSA, and NPIC receive a series of specific requirements based on this methodology and on these findings so that no one is in doubt as to what must be supplied to the analyst to come up with a story of this kind. (Not long ago, I asked the Director, NPIC to consider new and imaginative ways in which PI's might use photography for insights into R&D and the laboratory phase.) And last, I think, that these findings and methodology might be made a subject for a briefing to be given to NFIB.

I'd be interested in your reactions and comments.
